dbx® ZonePro® Module Now Available on the Compass Control®

COMPASS CONTROL®

dbx by HARMAN

dbx® ZonePro® products are now compatible with the Compass Control® System, the first fully integrated major control system built from the ground up to use iOS & Android devices – as its backbone.

Key Digital has developed a driver and a pre-configured GUI template for their Compass Control® system to interface with dbx® ZonePro® Digital Zone Processors. The dbx® ZonePro® Digital Zone Processors were designed to provide flexible programmable zone processing for multi-zone commercial applications, from signal routing to control and processing. Compass Control® system provides dbx® ZonePro® users a complete multi-zone audio solution, while having an integrated control system under their fingertips with additional video, lighting, climate, security, and automation controls.

Module Features:

> Support for all ZonePro Devices

> Driver and Module available for RS-232 and IP

> Mixing Controls

> Routing Controls

> Output and Source Level Control
