DoorBird Products Module Now Available on the Compass Control®

DoorBird
Quality for a safer home.
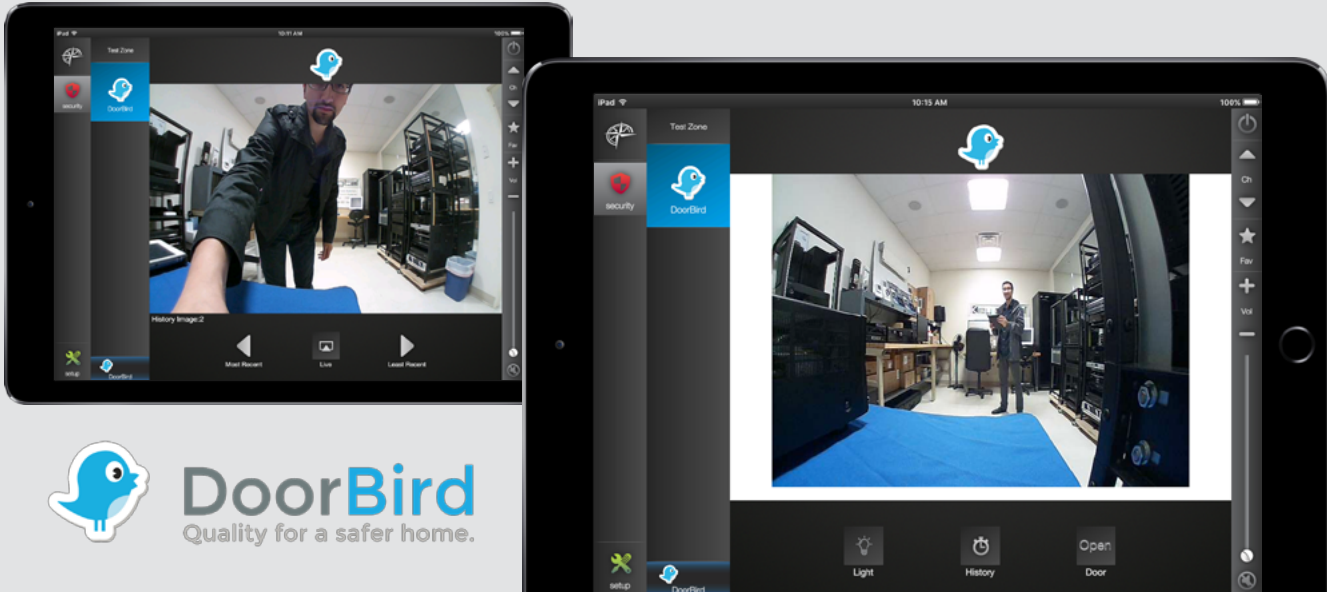

DoorBird products are now compatible with the Compass Control® System, the first fully integrated major control system built from the ground up to use iOS & Android devices – as its backbone.

Key Digital has developed a driver and a pre-configured GUI template for their Compass Control® system to interface with DoorBird. Compass Control® users can access DoorBird with just a touch of a button! Answer your door anywhere. With DoorBird you never miss a visitor. See and talk to your visitors immediately from anywhere in the world via Compass Control interface, while having access to a fully integrated control system with additional video, audio, security, and automation controls.

Module Features:

› Live Video Feed
› Light On Control
› Door Open Control
