

# Factor Electronics Module Now Available on the Compass Control®

Factor Electronics V-66 Multiroom System is now compatible with the Compass Control® System, the first fully integrated major control system built from the ground up to use iOS & Android devices – as its backbone.

Key Digital has developed a driver and a pre-configured GUI template for their Compass Control® system to interface with Factor Electronics V-66 Multi-room system. Compass Control® users will be able to access controls for their V-66 Multi-room system with their Compass Control® app. The module will provide iOS or Android access to multi-zone control of EQ, volume, audio and source switching, while having access to a fully integrated control system with additional video, climate, security, and automation controls.

## Module Features:

- › Bi-Directional Control over RS-232
- › Mult-zone controls
- › EQ Controls
- › Source Switching
- › Audio Controls
