

iPort® SurfaceMount Module Now Available on Compass Control® Pro

iPort® SurfaceMount is now compatible with the Compass Control® Pro, the first fully integrated major control system built from the ground up to use iOS devices – as its backbone.

Key Digital® has developed a driver and a pre-configured GUI template for the Compass Control® Pro system to interface with iPort® SurfaceMount iPad mounts with hard buttons. Compass Control® Pro system provides SurfaceMount users with bi-directional feedback and LED buttons background settings in an elegant interface, while having an integrated control system under their fingertips with additional video, audio, lighting, climate, security, and automation controls.

Module Features:

- › Bi-Directional Feedback
- › Panel Button LED background settings
- › Panel Button Project Integration
