## **Key Digital Announces Compass Control Pro**

### **Partner Alliance with ListenPoint Advance Control Unit LPT-C**

**MOUNT VERNON, NY –December 19, 2017–** Mount Vernon, NY-Key Digital, an award winning developer and manufacturer of leading-edge technology for HDTV applications, has announced that ListenPoint Advance Control Unit LPT-C6 is now compatible with the Compass Control System, the first fully integrated major control system built from the ground up.

Key Digital has developed a driver and a pre-configured GUI template for their Compass Control® system to interface with the ListenPoint Advance Control Unit LPT-C6. These products and profiles are rigorously tested by Key Digital. The ListenPoint Advance Control Unit LPT-C6 driver will allow for bi-directional control over RS232, microphone audio controls, channel audio controls, relay control, and input and page status.

Compass Control® users will be able to use their ListenPoint Advance Control Unit LPT-C6 with their Compass Control® app. The C6 ListenPoint Control Unit is the heart of a ListenPoint system offering six audio inputs. The C6 has input/output connections to a computer which enables teachers to conduct Virtual Field Trips via Skype. It's simple and easy for teachers with one, intuitive control for adjusting volume. Active audio sources are automatically selected so teachers can either use the single control on the control unit or on the M1 microphone to change volume - SIMPLE! The Control Unit connects to the Room Module using a single Cat-5e cable. Extensive customization of system through password protected front panel or via USB port. The backlit, tilting LCD is easy to read and displays the status of all microphones on the system including battery level. Designed to blend into any room, the control unit can be wall, desk or rack mounted.

Key Digital is an award winning developer and manufacturer of leading-edge digital video processing and video signal distribution solutions as well as the first fully integrated control system built from the ground up

to use iOS and Android, Compass Control Pro. Compass Control Pro offers modular programming or custom design with a blank slate that is limited only by imagination. Compass Control Pro Partner Alliances pre-configured control drivers, modules, and GUI templates integrate instantly and seamlessly to save on precious programming time.

*“Resulting from cooperative efforts between Key Digital and Listen Technologies, the integration of its Control Unit LPT-C6 within the Compass Control environment represents a powerful and user-friendly comprehensive solution delivering iOS-based control and entertainment functionality,” stated Key Digital’s COO, Michael Lakhter. “The Compass Alliance Partners have come together to create a system that has full driver integration already completed, increasing efficiency for integrators,” Lakhter concluded.*

## **About Key Digital®**

Led by the “Father of DVD”, Mike Tsinberg, Key Digital® is an InfoComm, CEDIA, CES, and NAHB award winning manufacturer of professional distributed video and control system equipment.

Since 1999, Key Digital has lead the constantly evolving A/V industry by designing products that deliver industry leading quality, performance, and reliability to corporate, bar & restaurant, digital signage, education, government, and house of worship applications.

Key Digital products are designed and engineered in-house in Mount Vernon, NY. Superior quality, ease-of-installation, and versatility are the result of strenuous research, development, and testing. Expertise and unparalleled knowledge have created a unique hardware-software suite solution ideal for the consultants, designers, and installation firms of the A/V industry. Key Digital® is known to deliver best-in-class products based on quality, performance, and reliability.
