

NEST® Thermostat Module Now Available on the Compass Control®

NEST® Learning Thermostat is now compatible with the Compass Control® System, the first fully integrated major control system built from the ground up to use iOS & Android devices – as its backbone.

Key Digital's Compass Control® system now offers a bi-directional driver for easy integration with NEST® Learning Thermostat via its Web App. Compass Control® system enables NEST® Learning Thermostat users with iOS or Android access to a next generation thermostat, featuring self-learning, and the ability to lower heating and cooling costs, while having an integrated control system under their fingertips with additional video, audio, security, and automation controls.

Module Features:

- › Full Bi-Directional Control over Web App
- › Thermostat mode control, scheduling control, and settings control
- › Nest Thermostat can be controlled via internet
