Key Digital Announces Compass Control Pro

Partner Alliance with Legend's NuVo Multi Room Audio Systems

MOUNT VERNON, NY – January 29, 2018– Key Digital, an award winning developer and manufacturer of leading-edge technology for HDTV applications, has announced that Legend's NuVo Multi Room Audio Systems are now compatible with the Compass Control System, the first fully integrated major control system built from the ground up.

Key Digital has developed a driver and a pre-configured GUI template for their Compass Control® system to interface with Legend's NuVo Multi Room Audio Systems. These products and profiles are rigorously tested by Key Digital. The Legend's NuVo Multi Room Audio Systems driver will allow for basic playback controls, zone controls, source switching, and audio controls.

Compass Control® users will be able to use their Legend's NuVo Multi Room Audio Systems with their Compass Control® app. The Legend's NuVo Multi Room Audio Systems give a room of your home instant access to endless music options, whether from your personal collection, the expansive libraries of Internet Radio, or even a Bluetooth-enabled device, always delivered in incredible fidelity.

"Resulting from cooperative efforts between Key Digital and Legend's NuVo, the integration of its Multi Room Audio Systems represents a powerful and user-friendly comprehensive solution delivering iOS-based control and entertainment functionality," stated Key Digital's COO, Michael Lakhter. "The Compass Alliance™ Partners have come together to create a system that has full driver integration already completed, increasing efficiency for integrators," Lakhter concluded.

About Key Digital®

Led by the "Father of DVD", Mike Tsinberg, Key Digital® is an InfoComm, CEDIA, CES, and NAHB award winning manufacturer of professional distributed video and control system equipment.

Since 1999, Key Digital has lead the constantly evolving A/V industry by designing products that deliver industry leading quality, performance, and reliability to corporate, bar & restaurant, digital signage, education, government, and house of worship applications.

Key Digital products are designed and engineered in-house in Mount Vernon, NY. Superior quality, ease-of-installation, and versatility are the result of strenuous research, development, and testing. Expertise and unparalleled knowledge have created a unique hardware-software suite solution ideal for the consultants, designers, and installation firms of the A/V industry. Key Digital® is known to deliver best-in-class products based on quality, performance, and reliability.
