# Phoenix Audio Octopus Module Available on the Compass Control®

Phoenix Audio Octopus Audio Mixers are now compatible with the Compass Control® System, the first fully integrated major control system built from the ground up to use iOS & Android devices – as its backbone.

Key Digital has developed a driver and a pre-configured GUI template for their Compass Control® system to interface with Phoenix Audio Octopus Audio Mixers. Compass Control® users will be able to use their Phoenix Audio Octopus Audio Mixers with their Compass Control® app. The module will provide iOS/Android access to RS control, microphones and speakers control, volume control, and mute control, while having access to a fully integrated control system with additional video, lighting, security, and automation controls.

Module Features:

› Bi-Directional Driver control over RS
› Control Microphones and Speakers
› Volume Control
› Mute Control
