

# TOA Digital Processors Module Available on the Compass Control®

TOA Electronics DP-SP3 & DP-K1 Digital Processors are now compatible with the Compass Control® System, the first fully integrated major control system built from the ground up to use iOS & Android devices – as its backbone.

Key Digital has developed a driver and a pre-configured GUI template for their Compass Control® system to interface with TOA DP-SP3 Digital Processor and DP-K1 Modular Digital Processor. Compass Control® module will allow for IP control, preset control, attenuation control, and mixing control (DP-SP3 model only), while having an integrated control system under their fingertips with additional video, lighting, climate, security, and automation controls.

## Module Features:

- › Full Bi-directional Driver. Controlled via IP
- › Driver/Module Available for DP-SP3 and DP-K1
- › Preset Control
- › Attenuation Control
- › Mixing Control (DP-SP3 Model Only)
