

# WolfVision® Module Now Available on the Compass Control® System

WolfVision® VZ-8 Plus Visualizer is now compatible with the Compass Control® System, the first fully integrated major control system built from the ground up to use iOS & Android devices – as its backbone.

Key Digital has developed a driver and a pre-configured GUI template for their Compass Control® system to interface with WolfVision® VZ-8 Plus Visualizer, featuring a superb native 1080p HD camera, and YSOP1 image processing engine. Compass Control® system provides VZ-8 Plus users with iOS or Android access to IP control of visualizer, zoom and focus control, preset controls, and on screen control, while having an integrated control system under their fingertips with additional video, lighting, security, and climate controls.

## Module Features:

- › IP Control of the VZ-8 Plus Visualizer
- › Zoom and Focus Control
- › Preset Controls
- › On-screen control
