# Cisco TelePresence SX80 Module Available on Compass Control® Pro

CISCO

Cisco TelePresence SX80 Codec is now integrated with the Compass Control® Pro System, the first fully integrated major control system built from the ground up to use iOS devices – as its backbone.

Key Digital® has developed a driver and a pre-configured GUI template for the Compass Control® Pro system to interface with Cisco TelePresence SX80 Codec. Compass Control® Pro system provides SX80 users with ultimate video collaboration experience an elegant interface, while having an integrated control system under their fingertips with additional video, lighting, climate, security, and automation controls.
